Dry ice blasting machine for sale uk

Optimal dry ice blasting is birmingham's first dedicated dry ice blasting company with more than 20 years of experience in decontamination, industrial cleaning, surface preparation, recovery and disaster relief work. Centrally based, Optimum provides a good geographic base and our fully trained, mobile crews are able to provide reactive services anywhere in the UK. Dry ice blasting is a coating edge, a non-abrasive alternative to traditional sand blasting, and blasting. Dry ice blasting can be used for cleaning: Machines, Fire damage, Foundries, Masonry, Kitchen, Automotive, Construction works, Petrochemical industry, Graffiti removal, Cleaning industrial equipment, Food industry, Cleaning printing machines, Tank cleaning, Railway industry and heritage restoration. Want to know more? Call us today and ask about lan or, click here for some frequently asked questions about dry ice blasting. Dry ice Pelletizer Asco A55P Bmfmngxiid Status: excellent Year of construction: 2017 P/N: S/N 17-001-08 Running time: 36 Ready to work. The video of how it works is recorded. Pick-up or drop-off is possible from Oberhausen 46047, Germany. With TRANSFORMER, minimize the loss (evaporation) of dry ice. This powerful dry ice blasting machine using dry ice nuggets and climbs for cleaning! Cnyf0rqo8 Innovative grinder (!) and supersonic nozzles (!) allow for ultra-aggressive and gentle cleaning. Features: up to 12 atm; up to 10,000 L/min, up to 120 kg/hour. Bpvkqjplu3 With 5m 1/2 blast hose, pistol and round nozzle, 10m compressed air hose. Air hose connection: 10m 3/4 claw Air pressure: Min. 2 bar, max. 10 bar Airflow range: 0.6-8 m³/min. Power supply: 110V-230V/AC50-60 Hz Delivery possible. Preferred is a pick-up by house freight forwarding agency! Dry Ice Jet 6000s special feature Dry Ice Jet 6000 series is subject to continuous process improvement and is of higher quality and more efficient than conventional blasting machines. Quality: Stainless steel frame designed for reliability and durability Control panel: User-friendly and simple options for adjusting beam parameters Safety instructions: To eliminate possible risks Dry ice and air outlet: Air inlet on the back, here comes the output on the Control connectio blast gun... Innovative jump in dry ice blasting. Aquila Triventek proudly introduces a new generation of dry ice blasting machines. The device is characterized by a very good price-performance ratio. The BL25 MINI is a professional unit that has been developed for small but frequent cleaning work. With our special nozzles, we achieve higher cleaning efficiency at lower pressure, even below 5 bar low noise levels. Bl25 MINI is suitable for both heavy pollution and special cleaning work. I... SMART IND is an industrial dry ice tearing machine capable of handling even the most demanding surface applications that require high compressed air consumption and offer real professional performance. This machine is the strongest and most durable machine in the ICEsonic SMART series. Smart IND is ready for every challenge. Subvvw 1 Stk. ICEsonic Smart Professional 1 Stk. Abrasive Dry Ice Blaster SMART Professional Dry Ice will surprise you with its cleaning power. Powerful compressed air cleaning 300 l / min. Minimal investment, ideal for any workshop or company that already owns a compressor. The IcEsonic SMART dry ice blaster was awarded at the 61st Annual Grammy Awards. Bdtvgb7kwj - Powerful system with one hose - Low air consumption (varies according to the size of the nozzle) - Higher at ... Manufacture! For personal use! for commercial retailers! Production directly for companies! Dry Ice Production Systems Pelletizer machine designation from AT 120 - 1000! Production on request: 120 - 1000 kg per hour! Semi-automatic, Manuel change to die! Matrix optional in 1.7-16mm Upgrade to touch panel! More machines! Fully automatic! Die change automatically! Production of dry ice 1.7-16 mm (pellets / nuggets) Block ice production 1 - 5 kg! Block dimensions: 200x100x30 - ... TECHNICAL SPECIFICATIONS: 2m3xfnkqf Dimensions (LxWxH): 700 x 530 x 1100 mm Weight: 88 kg Container capacity: 23 kg Dry ice consumption: 30 - 80 kg / h Air connection: 3/4 Air volume: 2-12 m3 / min Air pressure: 1-80 kg / h 14 bar Power supply: 110/230 V - 50/60 Hz Attached load: 750W Description: User-friendly control panel/control • easy handling • one hose system • Light weight • Easy handling • top air/dry ice speed • Compact low-weight design • easy transport • easy transport • Large, i. It's not like SMART PRO is a lightweight dry ice nozzle for typical applications using conventional size compressors. This dry ice blaster surprises you with its cleaning power, which uses just 10 cubic feet of air (300 l) per minute. It is easy to use, ensures no clogging and is built with high quality. Smart Professional won the award at the 61st Annual Academy Awards. The B0isu7q ICEsonic SMART Industrial Smart Industrial Smart Industrial machine is able to handle the most demanding surface preparation, requires higher compressed air consumption and provides real professional performance. Air intake 0.5 m3 / min. (17 cfm) to 4.5 m³ / min. (160 cfm) and maximum dry ice consumption 90 kg / h (200 lbs / h). TECHNOLOGY Ig9pwc2w - Powerful single-pipe radiator - Dry ice pellet size from 1.5 mm to 3 mm (1/16 to 1/8) - Low air consumption (varies in nozzle size) from 10 donkeys (at 15... ICEsonic SMART HD (Heavy Duty) Powerful compressed air cleaning 300 l / min. The SMART HD dry ice cleaning machine is made of stainless steel construction with high-quality components for long-term operation and applications in various industries. They are mobile for easy transport and withstand a hostile work environment. TECHNOLOGY Powerful Single The action uses the size of dry ice pellets from 1/16 to 1/8 (1.5 mm to 3 mm) low air consumption (varies according to nozzle size) from 10 cfm (at... Smart Professional dry ice blaster surprises you with its cleaning performance. Powerful compressed air cleaning 300 l / min. Minimal investment, ideal for any workshop or company that already owns a compressor. ICEsonic SMART dry ice blaster Vsno9u was awarded at the 61st Annual 2015 World Cup. - Powerful single hose system - Low air consumption (varies according to nozzle size) - Higher printability - up to 175psi (12 bar) - Variable dry ice dispenser - up to 25... The cryonomic COB dry ice blasting machine was originally designed mainly for use with factory air (7bar). The only hose system for focalized and medium-sized cleaning. A combination of high performance with low air consumption along with light and easy handling. With integrated patented dry ice cleaning technology, ®. Each dry ice blasting machine offers unparalleled performance even in the most demanding conditions. Cryonomic dry ice cleaning COB62 is unique in cryonomic dry ice cleaning technology. With the larger COB62 Plus, a measured amount of abrasive can be added to the dry ice stream for more aggressive cleaning. Such as removing rust, paint and when preparing the surface for re-coating. Through an adaptive, optional module that can be either on the back or separately from the blasting unit. The best product to use with this COB dry ice blasting machine is our 3mm dry ice pellets to get the best finished result. The COB dry ice blasting machine range consists of 2 types of robust and compact blasters with one hose: Both of these dry ice blasting machines have blast pressure regulators, nanometers and compressed air intakes. They also have options for dry ice or air-only blasting, depending on your requirements. The quickie nozzle can be replaced in seconds, without the need for external tools. The handle is also ergonomic, impact-resistant and thermoplastic for easy and eco-friendly blast cleaning. Innovative jump in dry ice blasting. Aquila Triventek proudly introduces a new generation of dry ice blasting machines. The device is characterized by a very good price-performance ratio. The BL25 MINI is a professional unit that has been developed for small but frequent cleaning work. Y8jpl8ou With our special nozzles, we achieve higher cleaning efficiency at lower pressure, even below 5 bar with low noise level. Bl25 MINI is suitable for both heavy pollution and special cleaning... With TRANSFORMER, minimize the loss (evaporation) of dry ice. This powerful dry ice blasting machine using dry ice nuggets and climbs for cleaning! Innovative sander (!) and supersonic nozzles (!) allow for ultra-aggressive and gentle cleaning. Features: up to 12 atm; up to 10,000 L/min, up to 120 kg/hour. Cnyf0rqo8 CE components inside TECHNICAL SPECIFICATIONS: Dimensions (LxWxH): 700 x x 1100 mm 2m3xfnkqf Weight: 88 kg Container capacity: 23 kg Dry ice consumption: 30 - 80 kg / h Air connection: 3/4 Air volume: 2-12 m3 / min Air pressure: 1-14 bar Power supply 110/5 230 V - 50/60 Hz Attached load: 750W Description: User-friendly control panel / control • easy handling • one hose system • Light weight • Easy handling • top air/dry ice speed • Compact low-weight design • easy transport • easy to move • Large, i. It's not like Demonstration unit with only 8 operating hours. Almost new. Bpvkqjplu3 With 5m 1/2 blast hose, pistol and round nozzle, 10m compressed air hose. Air hose connection: 10m 3/4 claw Air pressure: Min. 2 bar, max. 10 bar Airflow range: 0.6-8 m³/min. Power supply: 110V-230V/AC50-60 Hz Delivery possible. On request with water nozzle for dust-free blasting. For soda blasting machine we recommend individual training. Certificates: Soda sandblasting set meets all legal re... Soda blasting machine, 100L blasting pot SODA blasting machine 100 liters blasting pot - 100 liters blasting pot, - Seed, cover - Wheels, - LARK Thompson valve, - Burkert remote control valve, - LARK CLX, deadman handle - Twin line hose, 15m - which connect the valve with the blast furnace. Bbg8nc32zn - Silencer, - Regulators, - Separators, - Pneumatic vibrator, - Glycerine manometers. On request with water nozzle for dust-free blasting. For soda blasting machine we recommend individual free training - you are welcome to visit us in Str... Soda blasting machine, 100L blasting pot + saf SODA blasting machine 100 l blasting pot with operator safety low pressure blasting pot made to meet industry requirements. - 100 litre pot, - Mains, cover - Water separator CAF-3, - Wheels, - VALVE LARK Thompson, - Valve remote control Burkert, - DEAD MAN HANDLE LARK CLX, - Double hose, 15m, - Parts that connect the valve to the blasting pot, - Shock absorber, - Control system, - Separators, - Pneumatic vibrator, - Glycerine manometers, - M-FLEX blast hose DN 19, 10m - LARK CQN ... We offer hanging blasting equipment SIRSI METALLISATOR, type - SELBA 0-8 TR SM 260. Year of production 2009. The size of the perched chamber is: width - 800 mm, height - 1500 - 1600 mm. Sweeping equipment with 8 sweeping turbines and frequency converters - (speed control). Each throwing wheel with a power of 5.5 kW. The device includes a filtration unit with a capacity of 7000 m3 / hour. Number of hanging hooks - 28 pieces, travel speed - 2.9 m / min. Equipment with complete drawing d... Injection housing / beam machine ISK802 Working area B = depth 1200 mm = height 880 mm = 745 mm. Energy consumption Vbytf83z approx. 0.6 kWh Practical jet cabin. With lightweight gas pressure, gelnk's two folding door flaps in the open position offer a perfect free front and allow heavier workpieces to be loaded using a forklift or crane. If you have questions about technical specifications, etc. The basis of the machines is production in the großenzü... Dry Ice Pelletizer Asco A55P Status: excellent Year of construction: 2017 P/N: S/N 17-001-08 Running time: 36 Bmfmngxiid Ready to work. The video of how it works is recorded. Pick-up or drop-off is possible from Oberhausen 46047, Germany. On behalf of the butcher's shop for the purchase of larger equipment: • Ice machines in very good condition • Manufacturer Funk, Kehl, Germany • Type F 300 Easy Clean • Year of construction 2011 • Current new price approx. Euro 7 000.- net • Maximum daily ice output 260 to 300 kg • Maximum daily water consumption 0.26 to 0.30 cubic meters • Water supply temperature higher than 7 ° C, optimally 16 ° C • Water pressure 0.2 to 10 bar • Ambient temperature + 7 to +32 ° C, optimally ... Wet sanding unit, Sanding unit - PRESSURE BLASTING UNIT SAPIMasch. No. 43207 Year of construction 1989My size 140 liters in a row. operating overpressure 10 barIt takes about 3000 liters/min.length of the hose about 8 m- Valve opens and closes by pneumatic operation on the blast nozzle - Sandblasting protective hood with compressed air connection - Complete system installed on metal with fork pockets - Accessories such as connecting pieces for blasting nozzles at l... De IBIX 9F2 is een professionele en multifunctionele straalketel. verwerkt alle soorten harde straalmiddel werkdruk instelbaar van 0.1 tot 8 bar. Ook bij een lage werkdruk een mooie egale straal Compleet geleverd met lichtgewicht straalpistool en nozzle naar keuze. Maars 5 jaar fabrieksgarantie Ontwikkeld voor professioneel intensief gebruik. Word veel ingezet voor: Meubels ontlakken / waslagen verwijderen Graffiti verwijderen Roest verwijderen Kijk voor meer informatie z een vrijblijvende de... Slingshot wheels type suspension line type 1.15 2T Using Dundy 1000mm Houldn 1500 load 500kg with 2 hours suspension wheels 7.5kW with filtration system and spring dust filter. If you have questions about technical specifications, etc., please contact us in writing or by phone. The basis of the machines has been production in the Grossenlueder area since 1971. Harth & Seifert-Georg Fischer-Schiffmann and Seidl-Oliver Fritz GmbH & Co. Kg with long-term known contacts. Ba7qltg8d7 Blasting engine room with dimensions of 4500x5500 mm, door 5100 mm, crane hook 40 tons, 9x11kW Ruten turbine, dust filter 30,000 m3/h, 40 kW. The workpiece is hung on a swivel hook or inserted into the basket. Cxd2afv0 This is a used langheinz L 130 ice water machine (built in 2011) for sale. The machine is checked and fully functional. The machine is in very good condition. - recommended dose size up to: 40 litres Bolprzkud - Continuous power: 70 litres/hour (at +17.5°C and +2.5°C input) - Maximum cooling capacity: 230 litres/hour (at inlet +17.5°C and +2.5°C) - 230 volts, 50 Hz - Refrigerant: R 134 A - External dimensions: length: 560mm, width: 590mm, height: 900mm Price on request. Hunziker Blast wheel via blasting machine Blasting machine Working range approx. 250 w * 280 l. 2 * blasting wheel 7.5 kw used for cleaning brass castings/ moldings if needed with new segments of conveyor (belt) Suxeh Flakes ice machine Hozh type: FM-120DE Stainless steel version Ice making 125 kg / 24h Container 36 kg Dimensions: 640 x 600 x 798-833 mm Refrigerant R 134a Connection 220V, ready to connect Used machine cleaned and inspected by Gwslcg Come to our sales center with baking equipment and many bakery machines. Blasting machine OMSG Lauco 60 FAC Year of manufacture: 2011 Used machine. Fully functional. Next description: New turbines. Internal plating completely replaced (material X120Mn12). Hours worked: 1197 Serial number: 11693 Number of turbines: 4 Turbine power: 4 kW Ground clearance: 800x450mm Roller tables: Input: 12m roller conveyor Mnw8j3g Outlet: 12m roller conveyor Documentation: electrical diagram, Manual disassembly and loading: included is used funk flake led machine type F 160 (BJ 2010) for sale. The machine is fully functional and in good condition. Bolpi2gz2f Power: 160kg in 24 hours Video can be uploaded on demand. Price on request. Make: Calumatic Automatic 1 dry vacuum closing machine head Model: STV-1 Capacity: up to 1500 glasses per hour Frame: stainless steel 1.4301 (AISI 304) Dimensions: L x W x H = 3300 x 13000 x 2500mm Weight: 750Kg Power: 380 Volt - 50 Hz - - 4.5 KW Features: stainless steel switchboard and lqh7yqr rotary fill Tools: machine equipped with tools for size 1 container and 1 cap size for customers specifications Ice blasting unit from Südstrahl - made in Germany Bm38l27y9h Our powerjet series of dry ice blasters provide even more power with ice permeability of 40 to 150 kg/hour. Thanks to the efficient single-tube system, a very strong jet beam can be produced, with which even the most resistant impurities can be removed. The new range will fit a device that is suitable for you in the range of 1 m³ - 20 m³ of air volume and air pressure from 3 to

max. Select 20 bars. SMART IND is an industrial dry ice air blaster that is able to handle the most demanding surface preparation applications that require high compressed air consumption and offer true professional performance. This machine is the strongest and most durable machine in the ICEsonic SMART series. Smart IND is ready for every challenge. Subvww The 115 PB pressure blasting system with an efficient pressure blasting system is particularly suitable for work where high removal speed is indispensable. Optionally available turntables allow you to process even heavy workpieces without any problems. sandmaster offers pressure blasting machine type 115 PB as the exclusive representative of sandmaster in the area of Baden-Württemberg as IS Zubehör GmbH. sandmaster pressure blasting system - pressure blasting system with 25l boiler - hig... Dry ice pelletizer Südstrahl Made in Germany prodce up to 120 kg of dry ice pellets per hour. Since solid dry ice evaporates over time, it is important to produce and process this just in time. This makes your request independent of the dry ice supplier or long shipping time. With the new SDPP120 pelletizer, you can remove dry ice pellets within 5 minutes and immediately insert them into the blasting machine. So you have the quality of dry ice in your hand - no sticking, crumbling or losing d... SMART PRO is a lightweight dry ice nozzle for typical applications using conventional size compressors. This dry ice blaster surprises you with its cleaning power, which uses just 10 cubic feet of air (300 l) per minute. It is easy to use, ensures no clogging and is built with high quality. B0isuo7q Smart Professional won the award at the 61st Annual Academy Awards. Thanks to the consistent use of high-quality materials such as stainless steel and carbide, the 75 IN MEDICA injection unit sets new standards in the field of manual processing of medical parts. The type 75 IN MEDICA blasting unit, equipped with self-cleaning filter cartridges and efficient preparation of the blasting agent, is extremely reliable in operation and achieves a high degree of Reproducibility. There are a number of options that cover a wide range of customer requirements.
